4/4/5 REPORTING SCHEDULE: FY 2019-20

We are transitioning from fiscal quarter reporting to 4/4/5 (or '445') reporting in FY 2020:

- Fiscal periods are broken out by weeks, with each week starting/ending on the same day of the week
- Each fiscal quarter has a total of 13 weeks (1st and 2nd months have 4 weeks, 3rd month has 5 weeks)

Why 4/4/5?

- Year over year comparisons (by week, month or quarter) are easier, with the same number of Fridays, Saturdays and Sundays in each reporting period
- This approach will increase reporting consistency and year over year variance analysis

EXECUTIVE SUMMARY

FY 2019-20 Q1 (April 1, 2019 – June 29, 2019)

- **Wagering:** In the first three months of Fiscal Year 2019-20*, gross wagering on Ontario races increased (+9.3%) relative to the same period the prior year. This increase was driven entirely by growth in the Standardbred handle (+12.5%) and Thoroughbred handle (+7.1%). Quarter horse wagering declined significantly year over year (-31.3%).
- **Horse Supply:** The Ontario horse racing industry saw a decrease (-5.4%) in its horse supply in the first three months relative to Fiscal Year 2018-19. This weakness occurred across all breeds (Thoroughbred -5.5%, Standardbred -3.0%, quarter horse -34.0%).

** NOTE: This report is using a 4/4/5 quarterly reporting format, which consists of 4 weeks, 4 weeks and 5 weeks versus 3 calendar months. This format allows better year over year reporting, as the same number of weekends will appear in a fiscal quarter. The first quarter covers the period from April 1, 2019 to June 29, 2019.*

PERFORMANCE DASHBOARD (INDUSTRY)

Year to Date View: FY 2019-20 Q1 (Apr 1, 2019 – Jun 29, 2019)

Key Points:

- Industry gross bet increased over the previous year (+9.3%).
- Horse supply weakened, with a drop in unique starters (-5.4%). This led to decreases in other horse supply metrics, including average field size (-1.7%).
