

Employee Testimonial Ron M.

Upbeat, bubbly music plays in the background.

We see a super appear on screen that asks the question:
What has changed the most at OLG?

Ron Miskiw, Senior Training Specialist is speaking to camera
*It's gone more player centric. We care about our players.
We're player obsessed, but also to the companies taking a lot of involvement within their
employees themselves. And I'm really enjoying that camaraderie that we all have
through all departments. I do like celebrating the differences between everybody,
understanding everybody's views and how they all come together, so that we can get
that positive end result.*

The video ends on the OLG Play for Ontario logo against a blue background.

Music ends.
